

Irina Gaynanova
Assistant Professor, [Department of Statistics, Texas A&M University](#)
irinag@stat.tamu.edu
irinagain.github.io
December 5, 2019

Research interests

Statistical learning, high-dimensional data, multivariate analysis, classification, data integration, computational statistics, machine learning.

Education

- Ph.D, Statistics 05/2015
Cornell University, Ithaca, NY
Advisors: James Booth and Martin Wells
- M.S., Statistics 05/2013
Cornell University, Ithaca, NY
- Diploma with honors (M.S.), Applied Mathematics and Computer Science 06/2009
Lomonosov Moscow State University, Moscow, Russia

Professional Positions

- *Assistant Professor* since 07/2015
Department of Statistics, Texas A&M University
- *Senior Specialist* 06/2009 - 07/2010
Balancing Market Division, OJSC Trading System Administrator, Moscow, Russia
- *Junior Statistician* 06/2008 - 05/2009
Census Division, AC Nielsen, Moscow, Russia

Funding

- NSF DMS-1712943 Gaynanova I. (PI) 07/2017 - 06/2020
Scalable methods for classification of high-dimensional heterogeneous data
Awarded amount: \$162,539
- Johns Hopkins University, Subcontract Gaynanova I. (PI) 07/2019 - 06/2020
Statistical Analysis of CGM Data
Awarded amount: \$30,063
- TAMU Institute of Data Science Postdoctoral Project Program Ni Y. (PI) 07/2020 - 06/2022
Studying Microbial Interactions and Host Heterogeneity via Data Integration
Role: Co-PI
Awarded amount: 50% of postdoctoral researcher support

Awards and Honors

- David P. Byar Young Investigator Award, ASA Biometrics Section 2018
- Cornelia Ye Outstanding Teaching Assistant Award, Cornell University 2014
- EducationUSA Opportunity Award 2009
- Study Abroad Scholarship, Technical University of Munich, Germany 2007

Competitive Travel Awards

- IMS New Researchers Conference 2017
- NISS Writing Workshop for Junior Researchers 2016
- SAMSI LDHD Summer School Program 2013
- Building Future Faculty Program, NC State University 2013
- Diversity and Mentoring Program at JSM 2012

Publications and Submitted Manuscripts

Note: the sign * at the beginning of a paper indicates alphabetical order of authorships; mentored student and post-doctoral associate co-authors are underlined; the sign ☒ denotes corresponding author.

Submitted Manuscripts:

17. Zhang Y.☒ and **Gaynanova, I.** (2020+) "Joint association and classification analysis of multi-view data." Preprint available on [arXiv:1811.08511 \[stat.ML\]](https://arxiv.org/abs/1811.08511)
16. **Gaynanova, I.**☒, Punjabi, N. and Crainiceanu, C. (2020+) "Modeling continuous glucose monitoring (CGM) data during sleep."

Peer-reviewed Publications:

15. Yoon, G., Carroll, R. and **Gaynanova, I.**☒ (2020+) "Sparse semiparametric canonical correlation analysis for data of mixed types." *Biometrika*, accepted.
14. **Gaynanova, I.**☒ (2020) "Prediction and estimation consistency of sparse multi-class penalized optimal scoring." *Bernoulli*, Vol. 26, No. 1, 286-322.
13. **Gaynanova, I.**☒ and Li, G. (2019). "Structural learning and integrative decomposition of multi-view data." *Biometrics*, Vol. 75, No. 4, 1121-1132.
12. * Bien, J., **Gaynanova, I.**, Müller, C. and Lederer, J.☒ (2019). "Prediction error bounds for linear regression with the TREX." *TEST*, Vol. 28, No. 2, 451-474.
11. Yoon G., **Gaynanova, I.** and Müller, C.☒ (2019) "Microbial networks in SPRING - Semi-parametric rank-based correlation and partial correlation estimation for quantitative microbiome data." *Frontiers in Genetics*, Vol. 10, 516.
10. Lapanowski A.☒ and **Gaynanova, I.** (2019) "Sparse feature selection in kernel discriminant analysis via optimal scoring." *Proceedings of the 22nd International Conference on Artificial Intelligence and Statistics (AISTATS)*, PMLR 89, 1704-1713.

9. Lederer, J. , Lu Y. and **Gaynanova, I.** (2019). "Oracle inequalities for high-dimensional prediction." *Bernoulli*, Vol. 25, No. 2, 1225-1255.
8. **Gaynanova, I.** , and Wang, T. (2019) "Sparse quadratic classification rules via linear dimension reduction." *Journal of Multivariate Analysis*, Vol. 169, 278-299.
7. Li, G. , and **Gaynanova, I.** (2018). "A general framework for association analysis of heterogeneous data." *Annals of Applied Statistics*, Vol. 12, No. 3, 1700-1726.
6. Hokamp J. , Leidy S., **Gaynanova, I.**, Cianciolo R. and Nabity M. (2018) "Correlation of electrophoretic urine protein banding patterns with severity of renal damage in dogs with proteinuric chronic kidney disease." *Veterinary Clinical Pathology*, Vol. 47, No. 3, 424-434.
5. **Gaynanova, I.** , Urbanek J. and Punjabi N. (2018). "Letter to the Editor: Corrections of equations on glycemic variability and quality of glycemic control." *Diabetes Technology & Therapeutics*, Vol. 20, No. 4, 317.
4. * Bien, J., **Gaynanova, I.** , Müller, C. and Lederer, J. (2018). "Non-convex global minimization and false discovery rate control for the TREX." *Journal of Computational and Graphical Statistics*, Vol. 27, No. 1, 23-33.
3. **Gaynanova, I.** , Booth, J. and Wells, M. (2017). "Penalized versus constrained generalized eigenvalue problems." *Journal of Computational and Graphical Statistics*, Vol. 26, No. 2, 379-387.
2. **Gaynanova, I.** , Booth, J. and Wells, M. (2016). "Simultaneous sparse estimation of canonical vectors in the $p \gg n$ setting." *Journal of the American Statistical Association*, Vol. 111, No. 514, 696-706.
1. **Gaynanova, I.** , and Kolar, M. (2015). "Optimal variable selection in multi-group sparse discriminant analysis." *Electronic Journal of Statistics*, Vol. 9, No. 2, 2007-2034.

Unrefereed Manuscripts:

2. **Gaynanova, I.** (2015). "Estimation of sparse low-dimensional linear projections." Ph.D. Thesis, Cornell University.
1. **Gaynanova, I.**, Booth, J. and Wells, M. (2013). "Supervised classification using sparse Fisher's LDA." Technical report, [arXiv:1301.4976 \[stat.ML\]](https://arxiv.org/abs/1301.4976).

Presentations

Invited Presentations:

36. The Fourth Workshop on Higher-Order Asymptotics and Post-Selection Inference (WHOA-PSI), St. Louis, MO, August 2019
35. Topic-Contributed session, Joint Statistical Meetings, Denver, CO, July 2019
34. ICSA Applied Statistics Symposium, Raleigh, NC, June 2019
33. Econometrics and Statistics Colloquium, Booth School of Business, University of Chicago, May 2019
32. Department of Biostatistics, University of Michigan, April 2019
31. Big Data Working group, College of Veterinary Medicine, Texas A&M University, March 2019
30. Friday Science Seminar, College of Science, Texas A&M University, February 2019

29. Department of Biostatistics, University of Minnesota, February 2019
28. 11th International Conference of the ERCIM WG on Computational and Methodological Statistics (CM Statistics 2018), Pisa, Italy, December 2018
27. Bioinformatics and Cancer Symposium, Texas A&M University, September 2018
26. Topic-Contributed session, Joint Statistical Meetings, Vancouver, Canada, August 2018
25. IMS Asia Pacific Rim Meeting 2018, Singapore, June 2018
24. ICSA Applied Statistics Symposium, New Brunswick, NJ, June 2018
23. Statistical Learning and Data Science Conference, New York, NY, June 2018
22. Department of Statistics, Indiana University, April 2018
21. SAMSI Operator Splitting Workshop, Research Triangle Park, NC, March 2018
20. Department of Biostatistics, UT MD Anderson Cancer Center, March 2018
19. 10th International Conference of the ERCIM WG on Computational and Methodological Statistics (CM Statistics 2017), London, UK, December 2017
18. Department of Statistical Science, Baylor University, November 2017
17. Department of Biostatistics, Johns Hopkins Bloomberg School of Public Health, September 2017
16. Data-Driven Model Reduction Workshop, Texas A&M University, April 2017
15. Conference of Texas Statisticians (COTS), Dallas, TX, March 2017
14. ENAR, Washington DC, March 2017
13. 9th International Conference of the ERCIM WG on Computational and Methodological Statistics (CM Statistics 2016), Seville, Spain, December 2016
12. Bio-seminar, Department of Electrical and Computer Engineering, Texas A&M University, October 2016
11. Topic-Contributed session, Joint Statistical Meetings, Chicago, IL, August 2016
10. Southern Regional Council on Statistics Summer Research Conference, Bentonville, AR, June 2016
9. Structured Multivariate Data Workshop, Texas A&M University, January 2016
8. Department of Statistics, Rice University, February 2015
7. Department of Statistical Science, Cornell University, February 2015
6. Department of Statistics, Indiana University, January 2015
5. Department of Statistics, Texas A&M University, January 2015
4. Department of Mathematical and Statistical Sciences, University of Colorado, Denver, January 2015
3. Department of Statistics and Actuarial Science, University of Iowa, January 2015
2. Department of Statistics, University of California, Davis, January 2015
1. Department of Biostatistics, University of Iowa, December 2014

Contributed Presentations:

12. Poster, ENAR, Philadelphia, PA, March 2019

11. IMS New Researchers Conference, Baltimore, MD, August 2017
10. Poster, International Conference on Machine Learning in New York City, NY, June 2016
9. Contributed session, Joint Statistical Meetings in Boston, MA, August 2014
8. Statistics Student Seminar, Cornell University, April 2014
7. Poster, SAMSI LDHD Workshop, February 2014
6. Contributed session, Joint Statistical Meetings in Montreal, Canada, August 2013
5. Poster, SAMSI LDHD Summer School, August 2013
4. Statistics Student Seminar, Cornell University, March 2013
3. Contributed session, Joint Statistical Meetings in San Diego, CA, August 2012
2. Cross-Campus Collaborative Colloquium, Cornell University, December 2011
1. Statistics Student Seminar, Cornell University, September 2011

Software Developed

Mentored student and post-doctoral associate co-authors are underlined.

6. [sparseKOS](#): an R package for nonlinear binary classification using sparse kernel optimal scoring, available from Github.
Authors: Lapanowski A., **Gaynanova I.**
5. [JACA](#): an R package for joint association and classification analysis of multi-view data, available from Github.
Authors: Zhang Y., **Gaynanova I.**
4. [mixedCCA](#): an R package for semiparametric sparse canonical correlation analysis for data of mixed types (continuous/ binary/ zero-inflated), available from Github.
Authors: Yoon G., **Gaynanova I.**
3. [DAP](#): an R package to perform discriminant analysis via projections, available from Github and CRAN.
Authors: Wang T., **Gaynanova I.**
2. [MGSDA](#): an R package to perform sparse multi-group discriminant analysis, available from CRAN.
Authors: **Gaynanova I.**
1. [TRES](#): a Matlab package to perform sparse linear regression using TRES, available from github.
Authors: Müller C., Bien J., **Gaynanova I.**, Combettes P

Teaching Experience

Primary instructor (at Texas A&M University):

STAT 211: Principles of Statistics I

Fall 2015/2016/2017, Spring 2016

Calculus-based introduction to probability and probability distributions; sampling and descriptive measures; inference and hypothesis testing; analysis of variance; linear regression.

STAT 610: Distribution Theory

Fall 2017/2018

Graduate-level introduction to probability theory; distributions and expectations of random variables, transformations of random variables and order statistics; generating functions and basic limit concepts.

STAT 689: Statistical Learning with Sparsity

Spring 2017

Graduate-level class covering penalized empirical loss minimization methods with sparsity-inducing penalties. The course also includes brief introduction to convex optimization and duality.

STAT 689: Computational Statistics

Spring 2018/Fall 2019

Graduate-level course on computational statistics and optimization. Topics include version control with Git and Github, code vectorization and profiling, writing R packages, introduction to convex optimization and optimization algorithms.

Primary instructor (at Cornell University):

ILRST 2100: Introductory Statistics

Winter 2013, 2014, 2015

Non-calculus-based introduction to statistics; sampling and descriptive measures; inference and hypothesis testing; analysis of variance; linear regression.

Teaching Assistant (at Cornell University):

ILRST 2100: Introductory Statistics

Summer 2013, 2014

Non-calculus-based introduction to statistics; sampling and descriptive measures; inference and hypothesis testing; analysis of variance; linear regression.

ENGRD 2700: Basic Engineering Probability and Statistics (recitation leader)

Fall 2013

Calculus-based introduction to probability and probability distributions; sampling and descriptive measures; inference and hypothesis testing; analysis of variance; linear regression.

MATH 4720: Statistics

Spring 2015

Introduction to mathematical statistics based in calculus, linear algebra, and probability theory; inference for proportions, inference for means, contingency tables and linear regression.

BTRY 6010: Statistical Methods I (TA/Lab instructor)

Fall 2009, 2010, 2014

Graduate level introduction to statistical methods for analyzing data; descriptive statistics and data visualization; analysis of variance; linear regression.

BTRY 6020: Statistical Methods II (TA/Lab instructor)

Spring 2010, 2011, 2012

Continuation of BTRY 6010. Emphasizes the use of multiple regression analysis, experimental design and generalized linear models.

Mentoring

Current Postdoctoral Fellows

1. Grace Yoon, Postdoctoral Trainee of DHHS-NIH National Cancer Institute T32, Texas A&M University, Department of Statistics

Current PhD Students

1. Yunfeng Zhang (expected graduation 2020)
2. Alex Lapanowski (expected graduation 2020)
3. Dongbang Yuan (expected graduation 2022)

Other formal mentoring

1. Brittany Segundo, Dr. Gaynanova is a teaching mentor through the Academy for Future Faculty (AFF) at Texas A&M University

Former PhD Students and Postdoctoral Fellows

1. Tianying Wang, graduated August 2018. Now Postdoctoral Research Scientist in the Department of Biostatistics of the Mailman School of Public Health at Columbia University.

Current membership on Student Committees*PhD:*

1. Allyson Souris (chair Anirban Bhattacharya)
2. Sangyoon Yi (chair Xianyang Zhang)
3. Krystin Pantoja (chair David Jones)
4. Jiayi Wang (chair Raymond Wong)
5. Nida Obatake (chair Anne Shiu, MATH)
6. Jianling Wang (chair James Caverlee, CSE)

MS:

1. Terin Thomas (outside member, ISEN)
2. Yinsong Wang (outside member, ISEN)
3. Yiwen Zhou (chair Huiyan Sang, STAT)

Former membership on Student Committees

MS: Aaron Knodell (CS), Haley Pichler (MATH), Jung Sim Hyun (MATH), Eric Riley (STAT)

Departmental and University Service

At Texas A&M University:*Committees:*

- | | |
|---|-------------------|
| • Graduate Committee, Department of Statistics | since 08/2019 |
| • Colloquium Chair, Department of Statistics | 06/2018 - 12/2019 |
| • Hiring Committee, Department of Statistics | 07/2018 - 02/2019 |
| • Undergraduate Committee, Department of Statistics | 09/2017 - 08/2018 |

Panelist:

- 3rd Annual TX-LA Undergraduate Mathematics conference 10/2019
- TAMU College of Science, Lunch and Learn series 09/2019
- TAMU Symposium for Faculty, Staff, Graduate Students and PostDocs in the Sciences 02/2017
- TAMU AWM Chapter Panel "Career in Mathematics" 03/2016

Other:

- Friday Science Seminar, College of Science, Texas A&M University 02/2019

At Cornell University:

- President, STATS graduate student organization 11/2013 - 05/2015
- Organiser, Statistics Student Seminars 08/2011 - 12/2013

Professional Activities

Editorial service:

- Associate Editor, *Journal of Computational and Graphical Statistics* since 2018

Program Committees:

- ENAR 2019 program committee, Statistical Learning and Data Mining section representative 2019

Professional Committees:

- ASA SLDS JSM poster competition judge 07/2019
- ASA SLDS Student Paper Award Committee 01/2019
- ASA SCS John M. Chambers Statistical Software Award committee 01/2016

Elected Positions:

- President, Southeast Texas Chapter of the American Statistical Association since 02/2019
- Vice-president, Southeast Texas Chapter of the American Statistical Association 10/2017-01/2019

Grant review panels:

- Joint NSF/NIH panel 2016

Refereeing:*Journals:*

Bioinformatics, Biometrics, Biometrika, Journal of the American Statistical Association, Journal of Computational and Graphical Statistics, Journal of Machine Learning Research, Journal of Multivariate Analysis, PLOS One, Statistical Analysis and Data Mining, Statistical Modeling: an International Journal, Stat, Statistics in Biosciences, Statistics in Medicine, Statistics & Probability Letters, Statistica Sinica, Technometrics

Book proposals:

MacMillan Education (2015), Wiley (2017), CRC/Chapman & Hall (2017, 2018), Springer (2018)

Sessions Organized:

- Topic-Contributed Session at Joint Statistical Meetings: "Integrative approaches for statistical analysis of data from multiple sources" **08/2019**
- Invited Session at Joint Statistical Meetings: "Discovering homology in multi-view data: new statistical methods for data integration" **08/2018**
- Topic-Contributed Session at Joint Statistical Meetings: "Exploiting Low-Dimensional Structures: Recent Advances of Statistical Learning Methods in Genetics and Genomics" **08/2016**

Sessions Chaired:

- Joint Statistical Meetings, Denver, CO **07/2019**
- ENAR, Philadelphia, PA **03/2019**
- CM Statistics, Pisa, Italy **12/2018**
- Joint Statistical Meetings, Vancouver, Canada **08/2018**
- IMS Asian Pacific Rim Conference, Singapore **06/2018**

Membership:

- American Statistical Association (ASA) **since 2011**
- Institute of Mathematical Statistics (IMS) **since 2012**
- ENAR **since 2015**

Other:

- Docent at JSM in Boston **08/2014**
